

Dear friends and followers of our Center,

Hereby please, find a call for scholarships by one of our partner institutions: the Blinken Open Society Archive in Budapest

Call for the Visegrad Scholarships at Blinken OSA in the fall of 2020/21!

In an era when people and academic communities are increasingly divided over matters of common concern, we consider it the duty of both historians and archives to engage in a more reflexive manner with the problematic nature of records of the past. We would like to assess the potential of a genealogical project linking the contemporary epistemic crisis of democracy to past modes of inquiry. We invite applicants from the fields of history, the arts, philosophy, and sociology to reflect on the conditions of knowledge production during and after the Cold War. Scholars and artists are invited to analyze the documentary practices of different agencies and persons on both sides of the Iron Curtain and assess the truth value of related documents/artifacts.

Submission deadline: **November 15, 2020**

For detailed information on the call, please check the official OSA Visegrad Scholarship website.
